"Our Salon is Your Salon"

We first opened our doors in March of 2015 and have been feeling the love and support from our community ever since.

Our salon is your salon means our customers are part of our business. Our goal is to keep you informed and in the know every step of the way as we grow and continue to provide quality services to you and your fur babies.

From all of us here at Candelore's Barking Beauties, we thank you for being such a huge part of our success. We wouldn't be where we are today without all of you!

*Thank you and God Bless,
Kelsi and Norm Candelore*

WINTER GROOMING TIPS

Long Hair, Don't Care

You may think you need to keep your pet's hair nice and long during the winter for extra warmth. Well, that isn't necessarily true! Neglecting to groom your pets in the winter might cause their hair to become extremely tangled and matted, which can result in your groomer having to clip your pet's coat to a very short length.

Winter grooming may be more important for your pet's health and well-being than grooming during any other season.

Besides, if you and your pets are going to be cooped up together during these cold winter months, you might as well have them looking great and smelling fresh!

Paw Attention

If your dog is walking on streets or sidewalks where de-icing products are used, keep in mind that these products can irritate your pet's paws and skin. You can minimize the risk by rinsing affected areas with warm water and drying them after each walk.
